

Dear Sirs: I would like to make comments regarding laws governing Low Power FM Stations. While I have read several items on the topic, I am still unsure on how allowing more LPFM stations would affect current FM translator services such as K-LOVE. K-LOVE serves me as a resident of the local community and is able to share great messages to other long-distance locations. If by petitioning for or against LPFM, I would vote against LPFM rules IF IT NEGATIVELY AFFECTS K-LOVE AND THEIR ABILITY TO TRANSMIT OR CAUSES MONITARY INCREASES/HARDSHIPS. I believe the messages and services K-LOVE offers our community is desperately needed. The good messages of God and his works THROUGHT THE WORLD would not longer be available to me/us. The principles that Jesus taught, which are universal and DEFINITELY in the public interest.
